TYLER DEMOCRACY.

Col. Dan Johnson Endursed for Congrammed Candidate—A Lively Time.
Special Correspondence of the Intelligencer.

MIDDLEBOURNE, W. VA., August 21.— This was a field day with the unterrified Democracy of Tyler. As heretofore annonneed they held their convention to select delegates to the Congressional and Senatorial conventions. A fair sized crowd assembled in the Court room this atternoon and proceeded to business by electing Col. D. D. Johnson, chairman, both temporary and permanent. Of course the chair made a speech, was commenda-bly brief, (in that particular different from bly brief, (in that particular different from the usual course of procedure,) but so far as it went it was on that same old tune.

Everything passed off smoothly for a time. Even the report of the Committee on Resolutions failed to raise a summer's evening breeze. For the benefit of wool growers I give the report in full:

Resolved, That we, the Democracy of Tyler county, assembled in convention readirm the cardinal principles of the Democratic party and endorse the Administration of President Cleveland.

Resolved, That we deploye the death of

Resided, That we deplore the death of
S. J. Tilden; that in him the party loses
its greatest leader since Jefferson.

Resided, That we hereby endorse the
action of the late Congress in attempting

to revise the tariff as the party was pledged to do, and for its work of forfeiting over to up, and for its work of forfeiting over one hundred million acres of public lands for the occupancy of actual settlers.. Resolved, That we heartly appreciate the services of Col. D. D. Johnson in the past, and recommend that delegates of this convention be instructed to vote for

Which resolutions were adopted without Which resolutions were adopted without a dissenting vote. After considerable wrangling a plan was hit upon for the selection of delegates for the conventions. Of course all the delegates to the Congressional Convention are now Johnson men, and will be until after the first ballot, when the bulk of them will go to your Uncle Ben with a whoop and hurrah.

Morrow at once declined and McCoy got the plum. The Chair (Oolone! Dan) suggested that the committee at once retire and select a chairman. While the committee was out some one inquired if the convention had not the power to choose a chairman, and the Chair ruled that it had. P. H. Anderson nominated Wm. Morris. The point was made that the committee was now empayed. nominated Wm. Morris. The point was made that the committee was now engaged in the arduous duty of selecting la chairman, and that possibly there might be an over production. A delegate rushed into the committee room and almost immediately returned with the intelligence that the committee would appoint a chairman. CHICAGO, August 21 .- State's Attorney Grinnell, having completed his arduous labors in connection with the Anarchist trial, left for New England and the Eastern sea-coast this afternoon. Immediately before leaving the city Mr. Grinnell held a private conference at his office in the Uriminal Court with Captain Schaack, Detective Bonfield and his assistants, Mr. Walker and Mr. Furthman. The principal question discussed was the attitude of the State toward the remaining Anarchists in Chicago who have not been arrested or presented for indictment by the grand jury. At the conclusion of the conference the State's Attorney was asked: "Have warrants been issued for the stread irry, and a first case under the extra territorial law, and as it caused much opposition and excitement, it is better to Schilling and Joe Gruenth?" During the nterim between the services, the avenues were crowded with the people, all apparently in search of some objective point, or rather, as it proved, searching for something to appease the gnawings of an empty stomach. The hotel was thronged all day, and the crowd was so great that it was an utter impossiple who expected to secure meals at the hotel. Many of the residents were sclicited to furnish meals. Almost any price was offered, but none were known to ac-cept any remuneration. Watermelons and circus lemonade were in abundance,

A COMMON PLATFORM.

O, brother, let us realize the fact to-day that the awful God is with us. That his eyes are over us. The sparrow never falls by a size over us. The sparrow never raise to the ground until God has signed its death warrant. It is not all of life to live, nor all of death to die. "Whatsoever a man soweth that shall he reap." That is a truism. We may all take that upon which to stand as a common platform. The Jaw and the Gentile, Christain and Leidel the Atheir and Driet all wells.

Some very enterprising men opened up a "shell game" near the ground in the moraing, and for a while were gathering in the shekela at a lively rate, but the "sheaves were soon gathered in," and marched to the county jail, where they will languish until Tuesday morning, when they will have a hearing.

The order on the ground during the day was of the very beat. Not an intoxicated person was seen anywhere and the conducts of ara seen was orderly and good. To Capt. Wm. Travis, the chairman of the Folice Committee, together with Mr. Juo. Marsh and his assistants, can be attributed the aplendid order.

The light-ingered gentry was represented on the grounds, as Mr. Alired Gannes, who resides near Moundaville, was relieved of his purse, containing about \$75.

The railroads running to the place were kept busy bringing to the grounds the what from the time of the sowing about \$75.

The Baltimore & Ohio and Ohio River railroads brought about ninety car loads, and these added to what were on the encampment early in the morning, together with those who came on boats, wagons, etc., would place the number in attendance at at least 12,000 people. At least 5,000 of these heard Sam harvest, and oats multiply so rapidly that you might have this world a hundred feet you might have this world a hundred feet deep in cats, and all from one little grain. Whenever a majority of this country says anything the minority has got to come to time on it. Now if temperance has just a majority of one to walk up and vote, whisky it. Dr. Smith, while being considerably in disposed, preached to an insmense audience and fully sustained the reputation he has established of being second in point of preaching ability to none that have been there before. The Doctor is a favorite and many expressions were made that the Doctor was worth more to the people in a spiritual sense, two to one, than Sam Jones.

At the service at 7:30 r. m. Sam Jones had at least 3,000 people at the main stand to hear him.

The financial receipts of the day will no doubt assure to the association more than emough to liquidate the expense of the meeting this year.

At the close of the services last night a slight rain began, which had the tendency to drive those who were not to remain on the ground during the night to the station, thus giving the cottagers an opportunity to relire early and get ready for the last day of Sam Jones, who will preach too, they for the last day of Sam Jones, who will preach to the whole and the second the ground, and it is questionable as to whether an invitation will be given him to return next year.
